

CUSTOMER INFORMATION MIRRORS & LIGHT MIRRORS

27.4.2023
1(1)

Dear Customer,

our selection has been completed with stylish Vanita & Casa mirror products. In addition to light mirrors equipped with the new patented GHOST technology, our options also include beautiful mirror cabinets, mirrors and lights for different areas of the home.

Check out our collection on our website and ask your responsible salesperson for more information.

GHOST
GHOST

With Ghost the power of technology creates magic. Just a simple gesture and the Ghost light comes to life, to illuminate your image. Another gesture and the illumination disappears no trace in transparency, no shadows, nothing remains to affect the purity of reflection.

With Modular Light System (MLS) choosing is simple: which lighting areas to activate, at what intensity and at what Kelvin temperature. MLS is energy saving: no light is wasted and, thanks to the Ghost technology, the unlit bars become invisible and do not affect the reflective surface of the mirror.
