

CUSTOMER INFORMATION

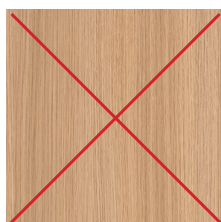

CHANGES IN OUR PRODUCT SELECTION

26/03/2024

• Colors removed from the selection of custom doors

Please note that the colors mentioned below have been removed from our selection of Bella custom doors. We kindly ask you to remove the colors from the model fans, the model doors from the racks and to change the model groups to to another door model.

MICROLAMINATE DOORS, removed Bella surface pattern:

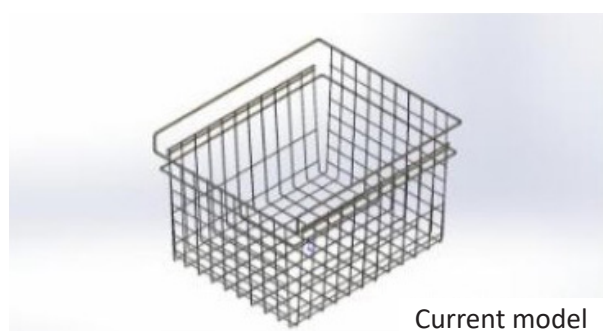

Bella Arki oak

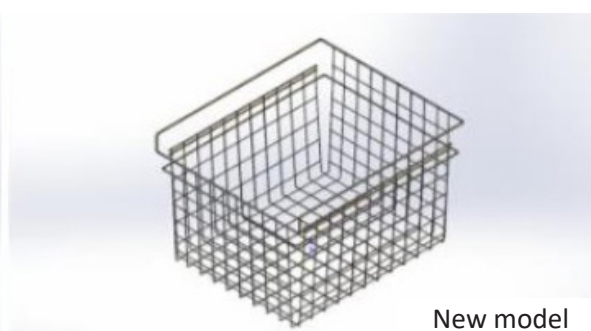

Bella Antique oak

• Change in model of white roller baskets

The model of white roller baskets in our range is going to change. In the modification, two additional wires will be added to the sides of the baskets, making the mesh denser than before. The structure of the mesh at the front and back edges of the basket will remain unchanged - the change will only affect the side wall mesh structure of the basket. **The wires will only be added to baskets that are 320 mm high;** lower baskets with a height of 140 mm will not change. The structure of the rails accompanying the baskets has also been improved, making the rails quieter, and rolling more smoothly. **The transition to the new basket model will occur gradually and mostly later in the spring.**
